s Now 422 Miles from His Starting Point-Machine So Badly Damaged He Won,t Be-Able to Fly Today.

Jamestown, N. Y., Sept. 24.—A double line of barbed wire fence along a country lane temporarily halted Avi-ator Calbraith P. Rodgers coast-to-coast flight at Red House, 25 miles east of here and 422 miles from his starting point, today.

Covered 89 Miles Yesterday. Rodgers had covered 89 miles during the day and was starting on a short jump of 25 miles to Jamestown, where he expected to spend the night, when he encountered the fences which made

wreck of his biplane. Weather and Engine Bothered Him. Both weather conditions and engine roubles handicapped him in today's ights. A stiff breeze was blowing when he left Hornell at 10.26 a. m., and just before landing at the Olean fair grounds at midday one of the auxiliary planes was blown off. The damage was not serious and the aviator again took the air at 1.45 p. m., with Jamestown as his objective.

Decided to Alight. East of Red House the trouble with the spark plug which bothered him yesterday again developed and he de-cided to alight. After tuning up he took his seat for a fresh start. The uneven surface of the ground and a peculiar slant of the wind prevented his clearing the barbed wire fence.

His Biplane Damaged. The biplane tore through the first line of wire and became enmeshed in the broken strands of the second fence. Both propeller blades were shattered and one wing was torn to ribbons. Rodgers escaped without a

for inquiry.

A further examination, however, showed the authorities that the man had probably been struck by a trolley car on the Norwalk line. His gar-ments were not muddy and the only ments were not muddy and the only injury he suffered was the fracture at the base of the skull. Identification was made by relatives. It was said by them that Smith had been away from home for several weeks and his whereabouts were not knewn to his family. It was learned, however, that he had been 'in New York and was walking back to New Haven when he was hurt. He was about 30 years old and leaves a wife and three children.

Among other relatives is a brother, who is a Catholic priest stationed at Waterbury.

TO BUY GRAIN BY WEIGHT.

Northwestern Ohio Dealers Discard Bushel Standard.

Lima, Ohio, Sept. 24.—Grain will be purchased by weight rather than by the bushel by the dealers of this part of Ohio after January 1, 1912. The Northwestern Ohio Grain Dealers association has decided to take the action. Two hundred dealers of Ohio, tion. Two hundred dealers of Ohio, Indiana and Michigan attended the meeting. The Enited States and England alone of the twenty-four principal commercial countries afhere to the bushel standard in grain transactions, it was said by the speakers, Because of an abnormally large amount of moisture in the corn in this

region of the state, it was said that the cereal will not be marketable this
